

CTP Camshafts

CTP Camshafts -

Due to the fact that camshafts open and close engine valves while rotating, they have a considerable effect on the engine performance. This is why only perfect parts that meet the required standards pass the quality inspections at CTP. Our camshafts ensure long-term operation efficiency as a result of careful and quality based production. CTP guarantees a long-life camshaft, as well as less downtime and smooth running engines.

Part No.	Description	Engine Model	Camshaft Bearing
1006298	CAMSHAFT W/ GEAR	3116	(1) 2W7211, (6) 2W7213
1007408	CAMSHAFT	3406B	(1) 4N6658, (6) 4N0685
1323930	CAMSHAFT	3054	(1) 365802
2W1221	CAMSHAFT	3204	(1) 1W5920, (2) 9N5246
2W5289	CAMSHAFT W/O GEAR	3412	(2) 4N6658, (2) 4N0685
2W7980	CAMSHAFT W/O GEAR	3408	(2) 4N6658, (3) 4N0685
4P2942	CAMSHAFT	3306	(1) 8N4110, (4) 7M4046
4W2430	CAMSHAFT A	3406B / 3406C	(1) 4N6658, (6) 4N0685
7W5426	CAMSHAFT A W/O GEAR	3116	(1) 2W7211, (6) 2W7213
8N9245	CAMSHAFT A W/O GEAR	3406	(1) 4N6658, (6) 4N0685
9Y1723	CAMSHAFT W/O GEAR	3304	(1) 8N4110, (2) 7M4046
9Y3354	CAMSHAFT W/O GEAR	3208	(5) 9L8072
9Y3355	CAMSHAFT W/O GEAR	3208 TURBO	(5) 9N5246

Numbers in parenthesis () indicate the quantity of camshaft bearings needed per camshaft installation.
